
RadioNet Workshop on Future Trends in Radio Astronomy Instrumentation SUMMARY

Monday 21 - Tuesday 22 September 2020

Dr. Reinhard Keller

Max-Planck-Institute for Radioastronomy
Bonn, GERMANY

Documentation

- If you look at the timetable on the Workshop's indico site and click on 'detailed view' you will find 'material' in the upper left Corner of the contributions. Here you can find the presentations of all Speakers.
- The video recordings of the talks will be posted at the same place, Probably from Thursday on. Please give us some time for this.
- Same for the Group Photo and a short summary. You will find them under 'Notes' at the bottom of the site.

Acknowledgements

- We like to thank Anton Zensus for the kind introduction and the Obituary for Nico d'Amico
