

– 12th BONN workshop –

# Formation and Evolution of Neutron Stars

Monday, May 14 2018

MPIfR/AlfA University of Bonn, Auf dem Hügel 69 53121, Bonn

## TOPIC

### Structure and Composition of Neutron Stars

Observational constraints (masses, radii, moment of inertia, mergers, cooling, etc.)

Progress in theoretical modelling

Astrophysical implications (NS equation-of-state, thermal evolution, SNe, kilonovae, etc.)

## PROGRAMME

**11:00 – 13:00** Highlights and general news

*Lunch*

**14:00 – 15:45** Topic presentations

*Coffee*

**16:15 – 17:45** Topic presentations and discussions

*Dinner* (optional, at own expense, starting at 19:00. Location *TBA*)

Participation is limited to 60 people. Registration will close as soon as all positions are filled

Register using the link below **before April 20**

Please, indicate if you would like to apply for presenting a contributed talk.

Participation is free, including lunch and coffee breaks.
